

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

for one year only to cover the two years of activity. Following the policy of a year ago, the lectures to be given during this season are to be related to problems of the war.

The first lecture has already been given by Dr. E. K. Dunham. Two lectures which were arranged to be held, one by Dr. Stewart Paton on the "Psychology of the Aviator"; the other by Dr. Alonzo Taylor on the "World's Food Situation," have been postponed on account of the departure of these men for Europe. Lectures, however, have been provisionally arranged as follows:

January 11, Colonel Eugene R. Whitmore, "Infectious Diseases in the Army."

January 25, Dr. R. M. Yerkes, "Psychological Examination of the Soldier."

February 8, Dr. Yandell Henderson, "Physiology of the Aviator."

March 1, Dr. Frederic S. Lee, "Industrial Fatigue."

March 15, Colonel F. P. Underhill, "War Gases."

THE AMERICAN SOCIETY OF NATURALISTS

THE American Society of Naturalists, in affiliation with the Botanical Society of America and the American Society of Zoologists, will hold its thirty-sixth annual meeting at Baltimore, under the auspices of Johns Hopkins University, on Saturday, December 28, 1918.

The Botanical Society of America will place the genetical papers of its program on Friday morning, December 27, and the American Society of Zoologists will group its genetical papers in a program for Friday afternoon. By this arrangement there will be sessions of interest to the members of the American Society of Naturalists on the day preceding the meetings of the society.

The American Society of Naturalists will offer, beginning Saturday morning, December 28, a program to which members of the society are invited to contribute papers.

The customary symposium of the Naturalists will this year be omitted. Well developed plans of the program committee were disarranged by conditions of the times at a date too late for readjustments.

The Naturalists' dinner, in which members of the affiliated societies are invited to participate, will be held on the evening of Saturday. At the close of the dinner Vernon L. Kellogg will talk on "The German philosophy of war."

Titles of papers offered by members of the society, with estimated length of delivery and statement of lantern or chart requirements, must be in the hands of the secretary by December 1. It is desired that papers be short and it should be remembered that the interests of the Naturalists are primarily on problems of organic evolution. The papers on the program will in general be arranged in order of the receipt of title except that papers on similar subjects may be grouped.

Attention is called to the change in the constitution by which a nomination for membership must now remain in the hands of the executive committee for at least one year before action can be taken upon it. Therefore, nominations to receive attention in 1919 must reach the secretary by December 31, 1918. Blank forms for nominations may be obtained from the Secretary.

Headquarters of the Naturalists will be at the Hotel Rennert, Liberty and Saratoga Streets. Members are advised to make early reservations. A list of boarding houses will be found at Registration Headquarters of the American Association for the Advancement of Science

BRADLEY M. DAVIS,
Secretary

THE BALTIMORE MEETINGS OF SECTION F (ZOOLOGY) OF THE AMERICAN ASSOCIATION

THE coming meetings of Section F of the American Association for the Advancement of Science will be held at Baltimore in connection with those of the American Society of Zoologists on December 26, 27 and 28.

The address of Professor Herbert Osborn, of Ohio State University, the retiring vice-president, will probably be given Thursday afternoon, on the subject of zoological trends and values in relation to education.
